

# Stealth Cam Command New Filters

6/15

# Behavior

Filters will automatically save and apply as soon as the filter menu is closed

# Filter Block Diagram

## Filter

AI Tag  
Date  
Time  
Temperature  
Moon Phase  
Pressure  
Wind

## Data Source

JMI AI Engine  
File Name  
File Name  
WeatherBit  
WeatherBit  
WeatherBit  
WeatherBit

Tapping this icon will slide out filter menu

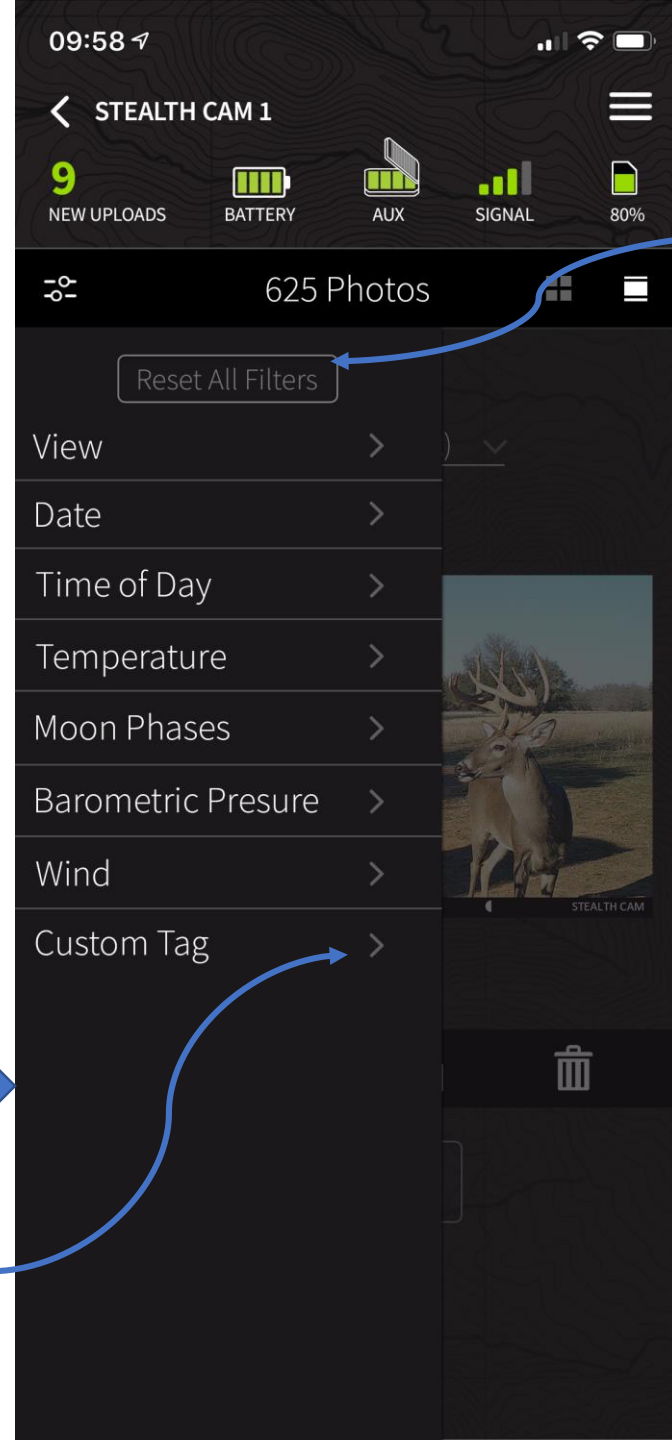

### Menu Open with no applied filters:

If there are no active filters when menu is opened all filters are collapsed

### Menu Open with applied filters:

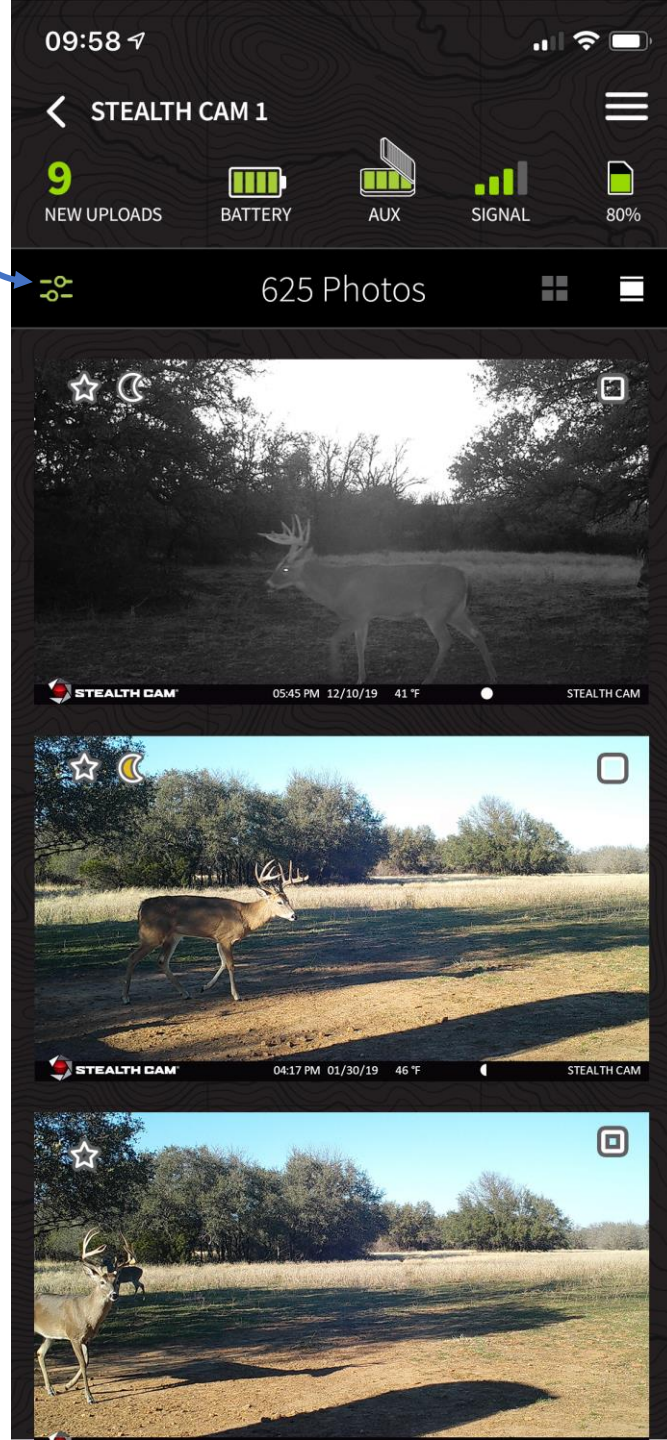

If filters are already applied when menu is opened, those categories will be displayed expanded.

Tapping here will expand/collapse each category.

Tapping this button will clear any applied filters

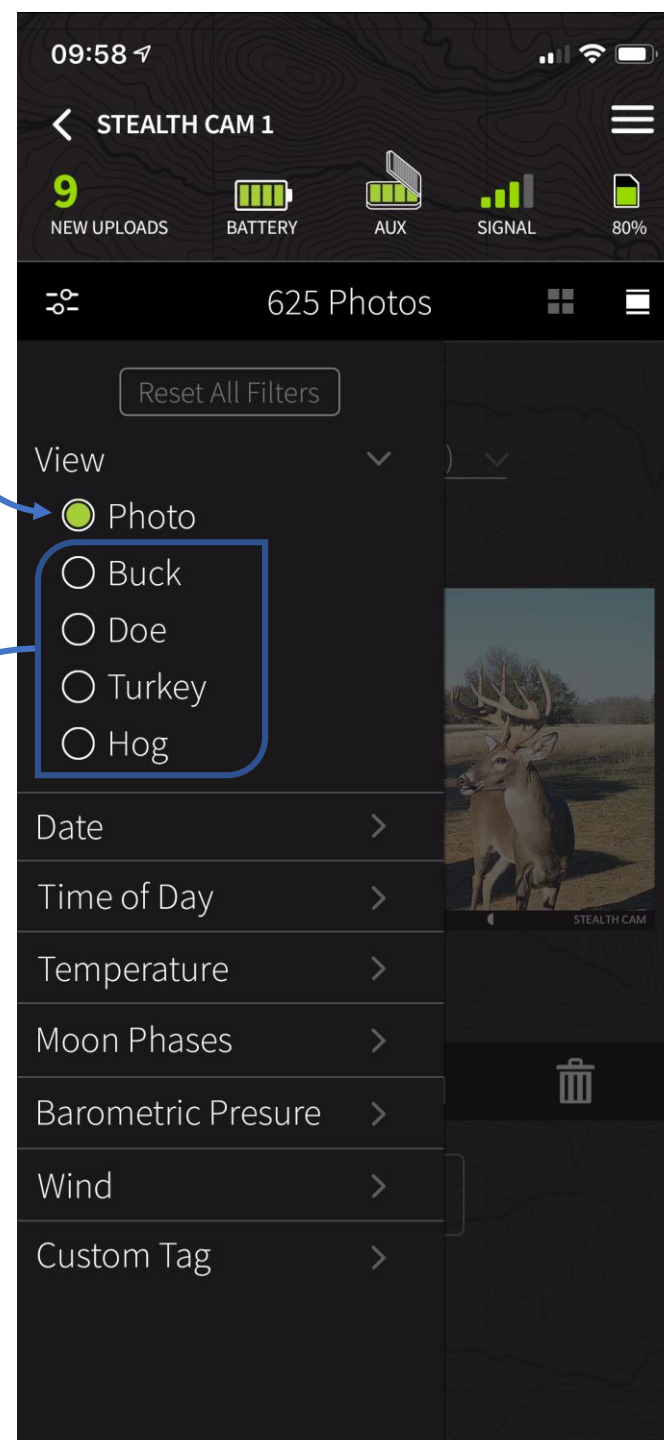

Filter Icon  
shows  
green  
when a  
filter is  
applied

## View

**Only one is selectable at a time**

These will display uploads sorted as such by AI or manually tagged by user

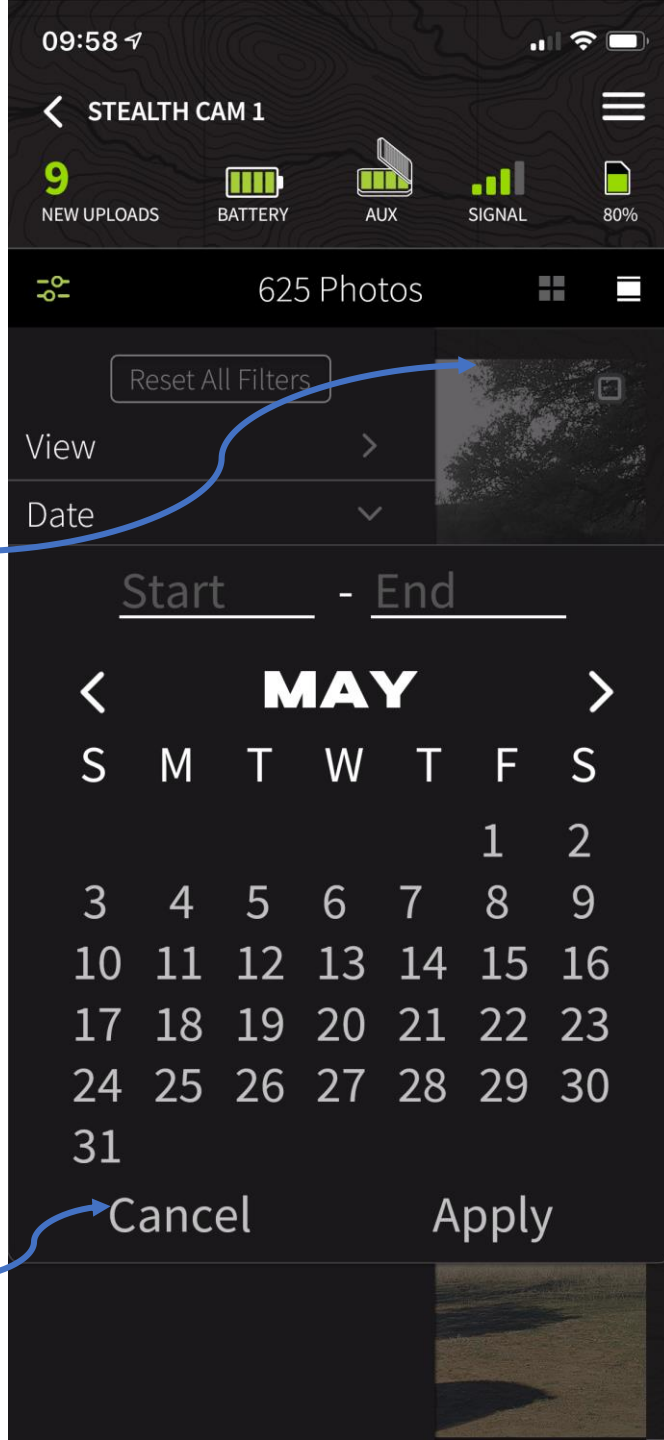

## Date Selection

Displays photos taken  
(**NOT UPLOADED**) in  
specified date range

Tapping anywhere  
outside calendar will  
close calendar  
without applying a  
filter

If calendar has no  
selection this button  
becomes cancel

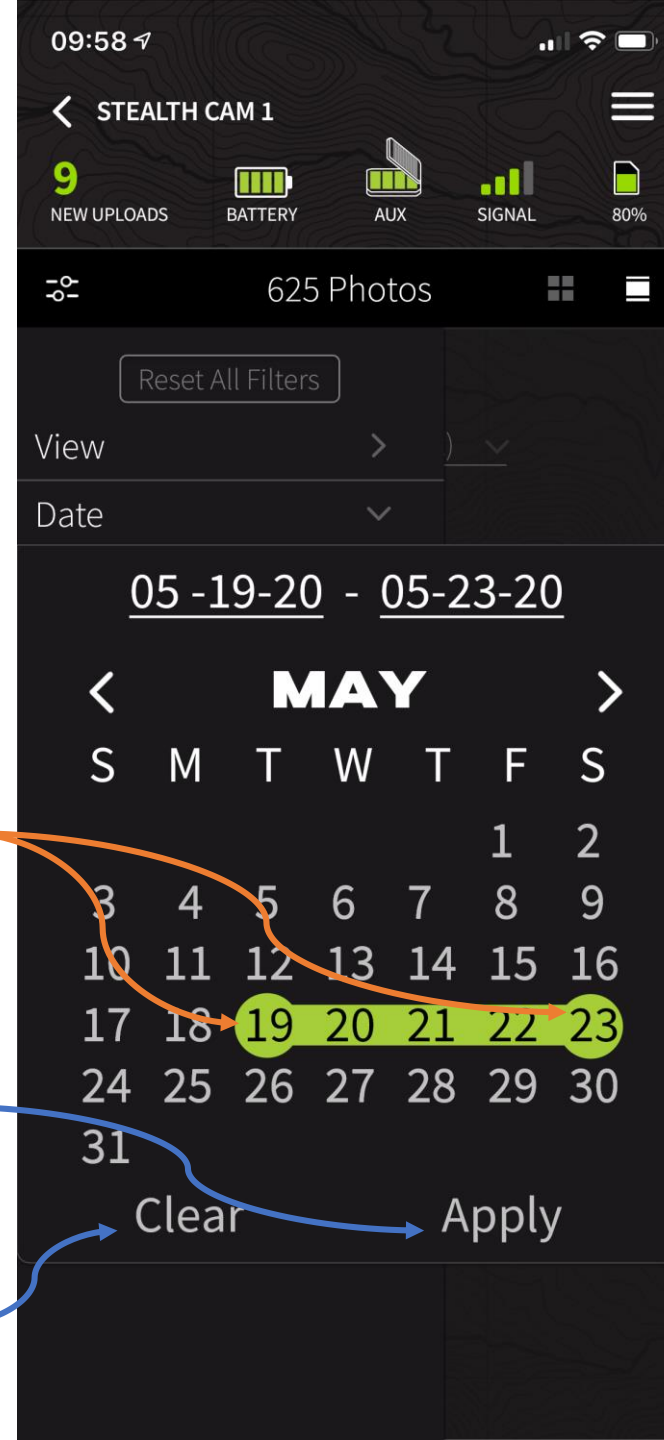

Camera map opens  
blank. The first date  
tapped will be the  
**Start Date**, and the  
second date tapped  
will be the **End Date**.

After date range is  
selected, user may tap  
and drag start or end  
date to adjust range.

Applies  
selected date  
range and  
closes calendar

Clears selected  
range

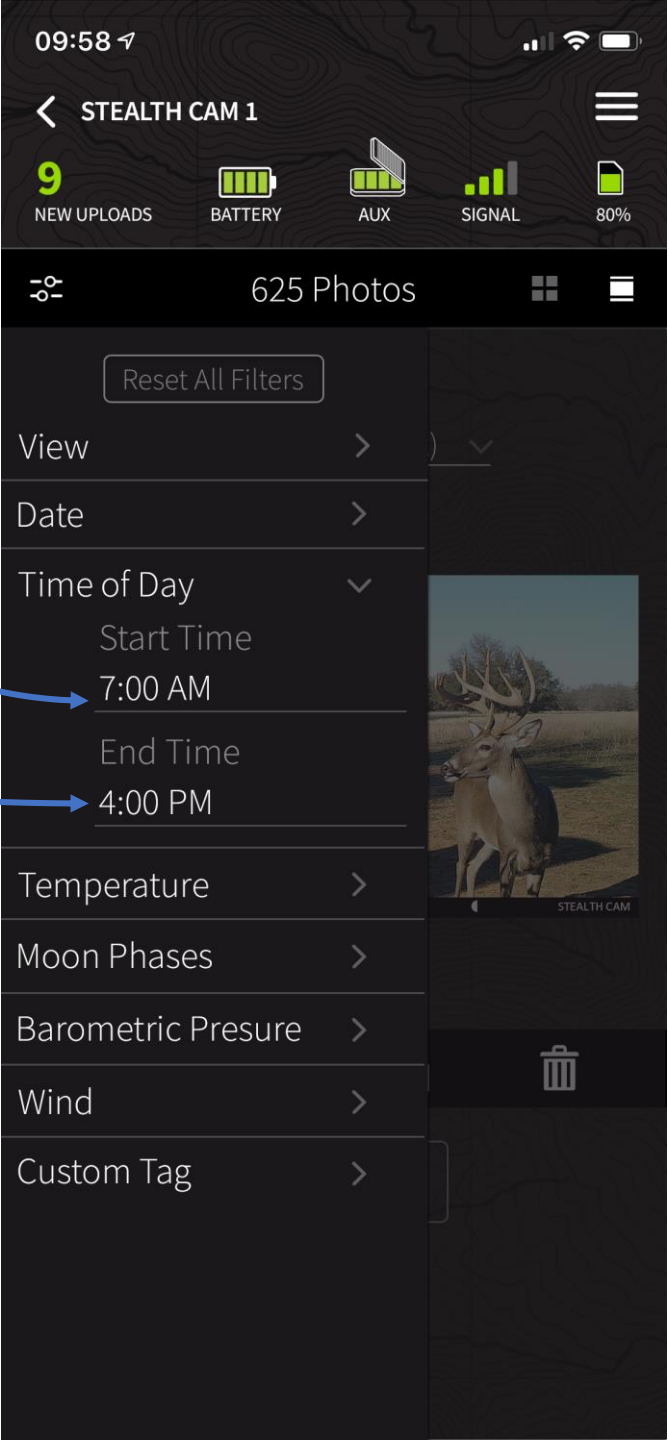

Time of Day

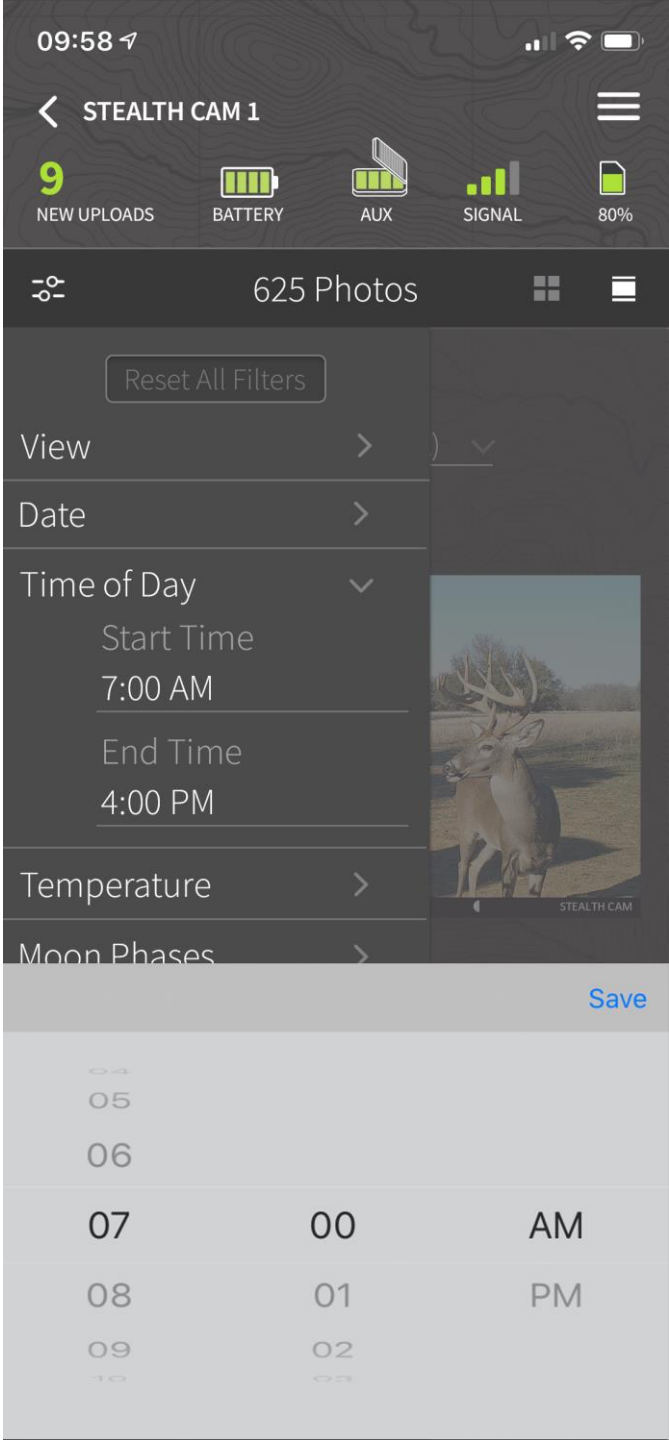

Displays photos taken  
**(NOT UPLOADED)** in  
specified time period

Beginning of time  
range

End of time range

Tapping either field  
opens up time picker

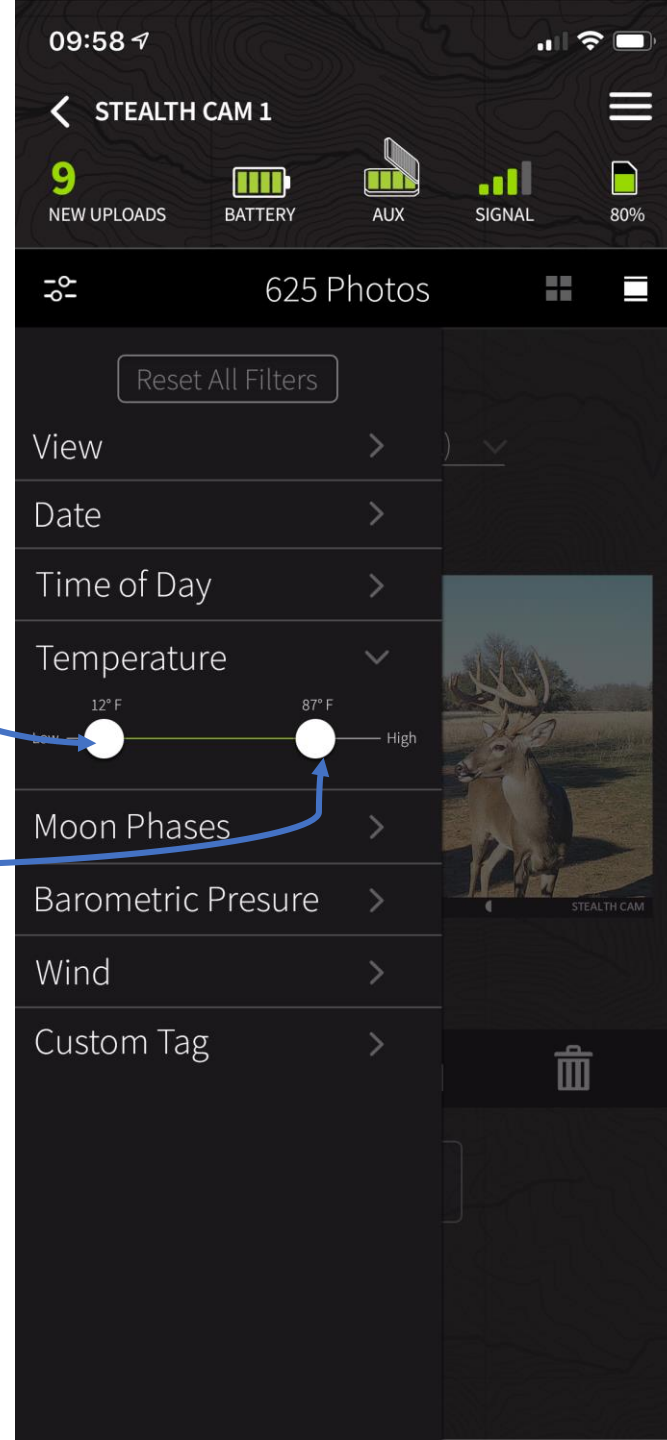

## Temperature

Displays photos taken within specified temperature range

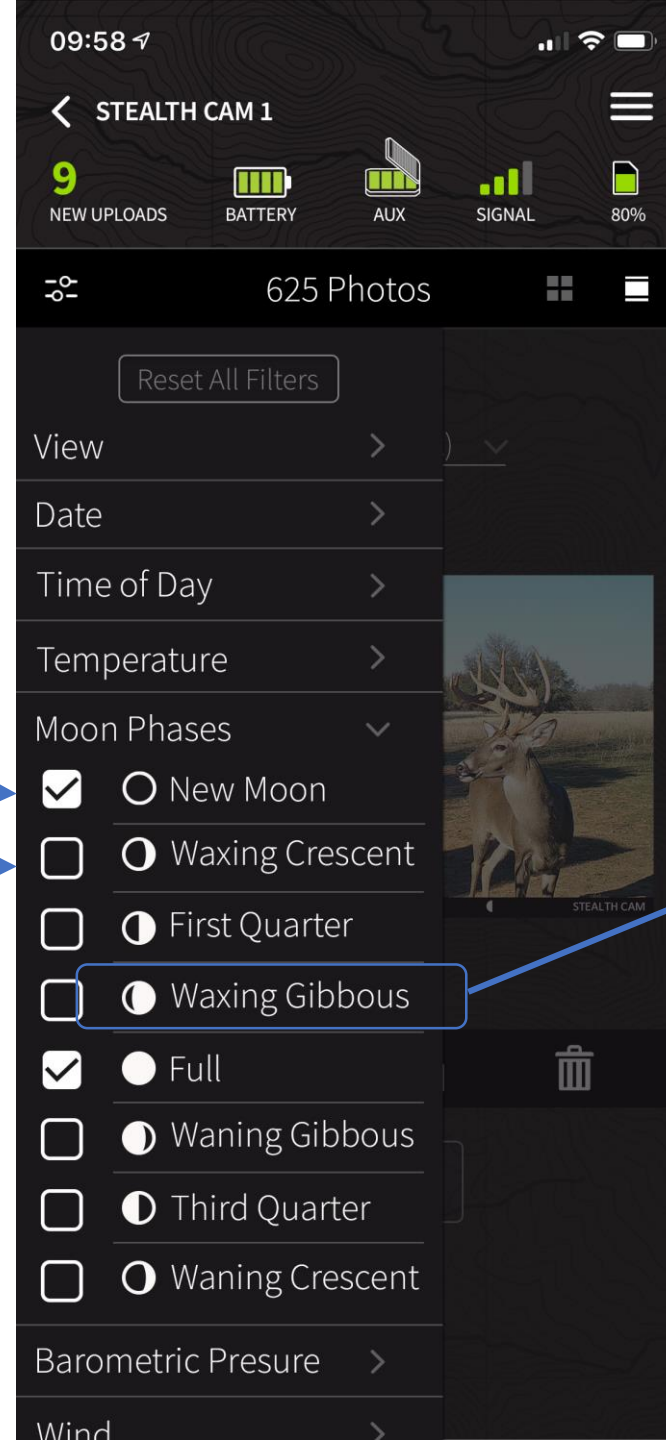

Beginning of temperature range

End of temperature range

## Moon Phase

Displays photos taken during specified moon phase

If more than one phase is selected photos taken in either phases will be shown

Selected phase

Unselected phase

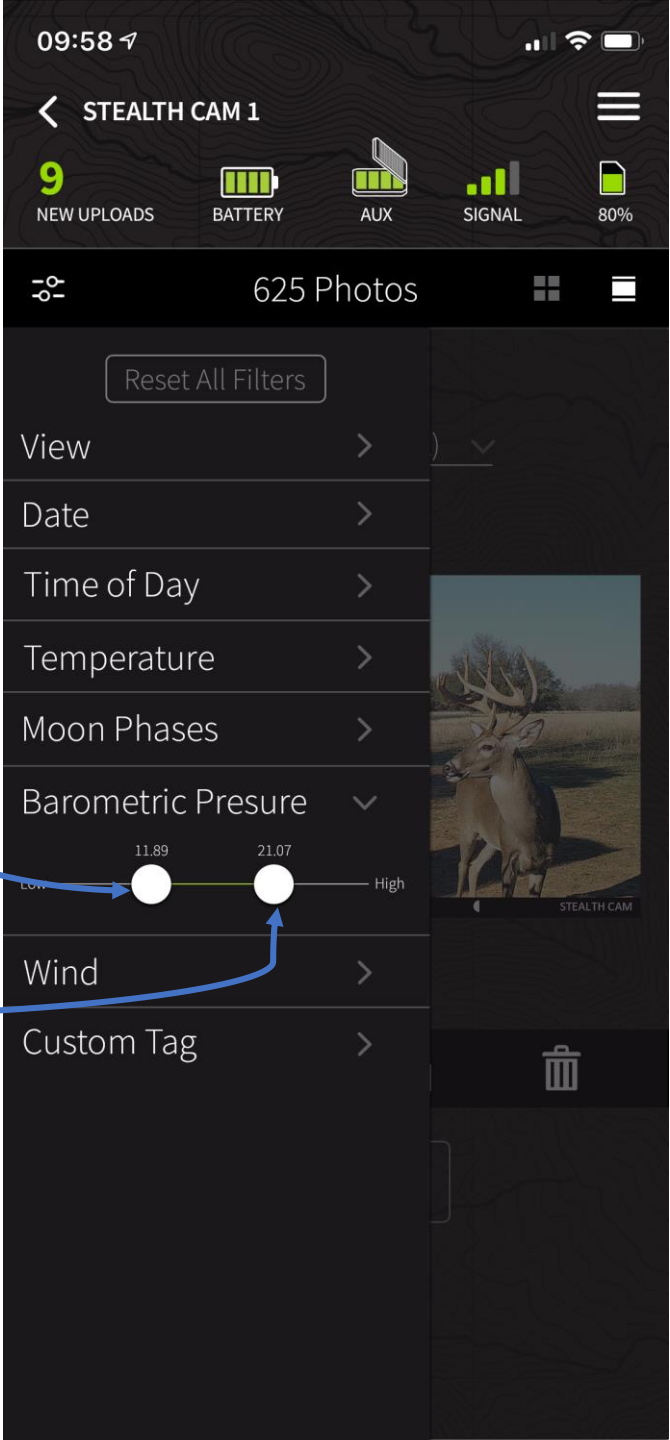

Entire line is the selectable area

Barometric Pressure

Displays photos taken during specified Air Pressure Range

Beginning of Pressure range

End of Pressure range

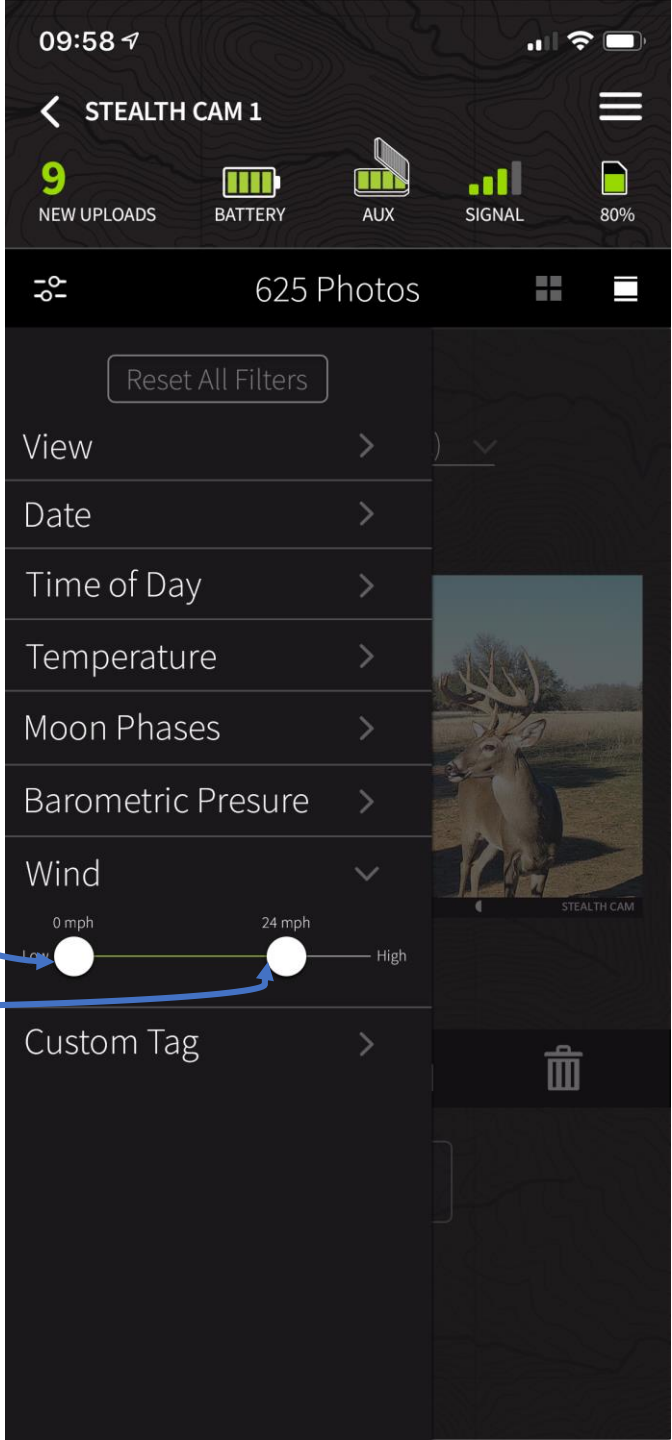

# Wind Speed

Displays photos taken during specified Wind Speed Range

Beginning of Wind range

End of temperature wind range

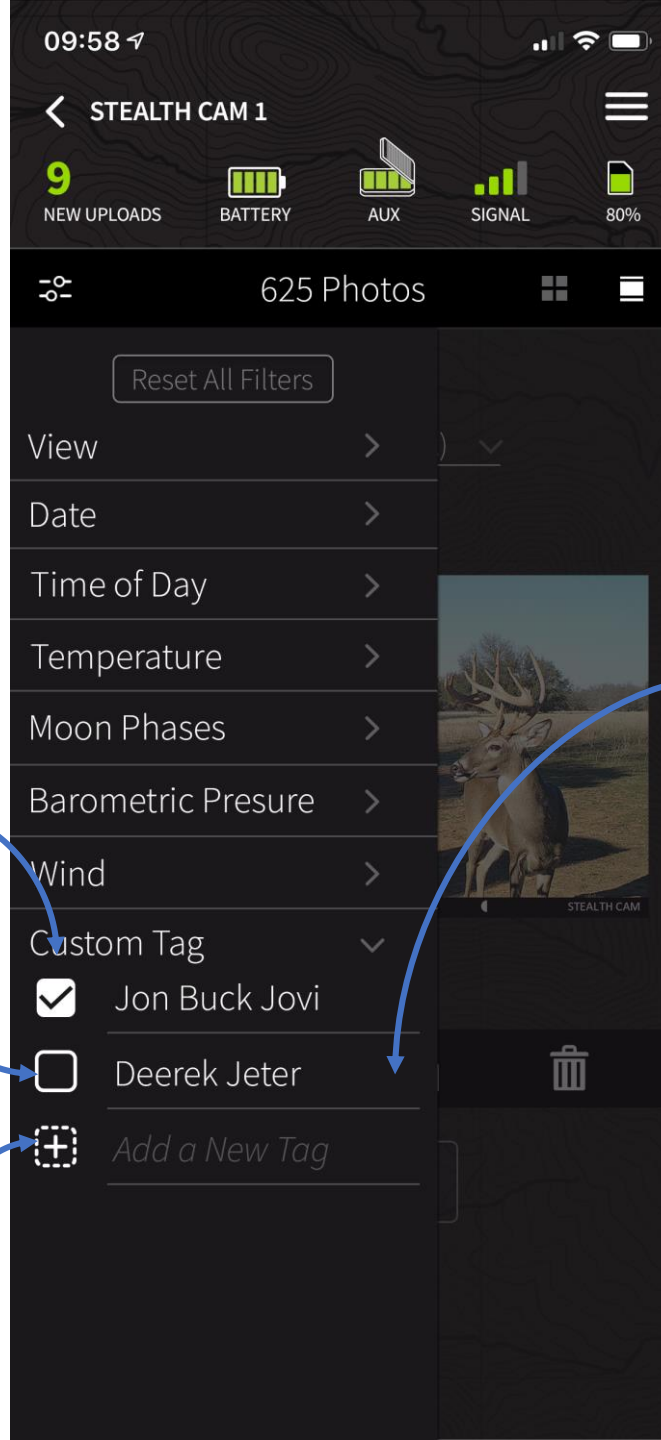

## Custom Tag

Displays photos marked with user defined tags

Selected tag

unselected tag

Tapping in this field will open device keyboard and allow user to create a new custom tag

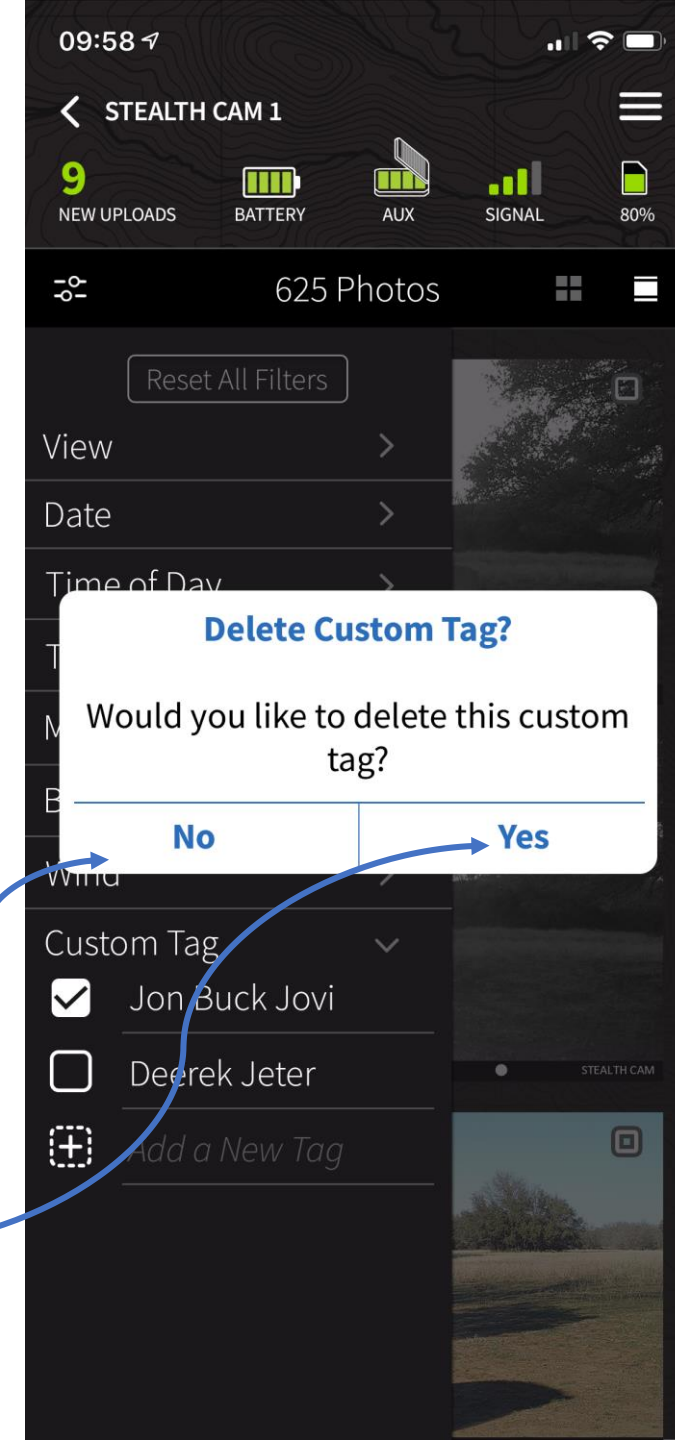

If more than one tag is selected photos with either tag will be shown

Performing a long press (1 sec) will open a prompt to delete the custom tag.

Closes Prompt with no changes

Closes prompt and deletes custom tag

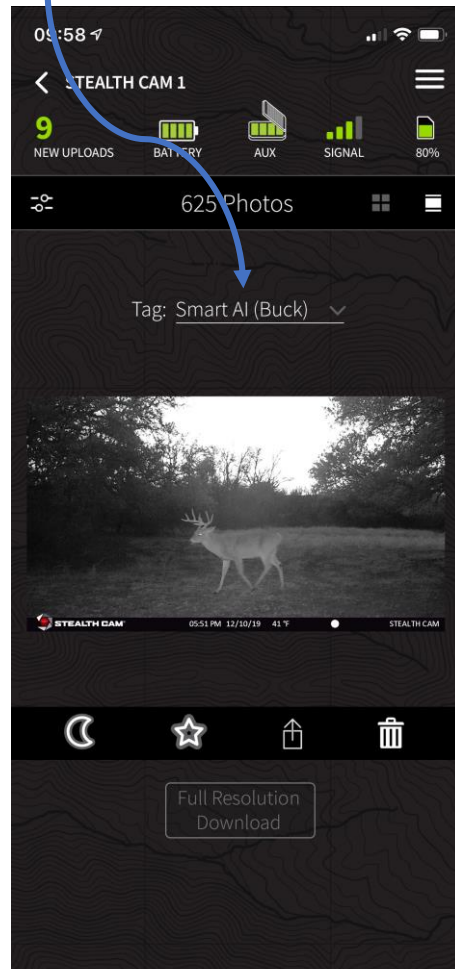

## Custom Tag

Displays photos marked with user defined tags

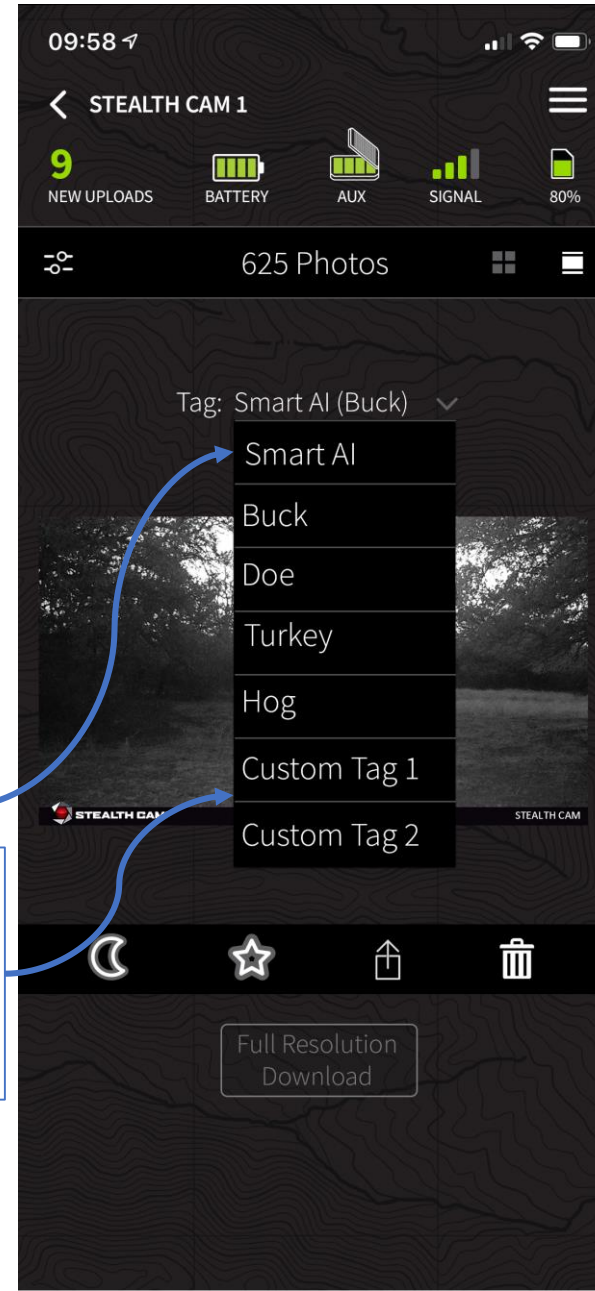

Manual Tag drop down. Current tag is displayed

### ELITE HUNT ONLY

Selecting "Smart AI" will use AI feature to automatically classify animal. This is applied by default.

Custom Tags displayed after default animal tags

If user does not have elite hunt, "Smart AI" is grayed out
